

MEASURES:

Height: 1 / 1,5 / 2 meters.

Length: 3 meters.

Direct sale of wicker and shipments throughout Spain.

We have installation and assembly service of fences or wicker fences in the area of Barcelona and its surroundings, allowing the client to enjoy a quick installation.

Semi-synthetic and ecological wicker made with rods of organic materials mixed with recycled polymer, joined together with galvanized steel; thus achieving a natural and decorative appearance.

Wicker fencing has a natural look and feel. Its flexibility allows it to withstand large gusts of wind. This material has Anti-UV protection, moisture resistant and is also fire retardant.

The quality of this wicker brings privacy to the home in a natural way.

Wicker rolls 3 meters long, with heights of 1; 1.5 and 2 meters.

Wicker is the preferred concealment system for landscapers, gardeners, individuals, ... for its natural appearance, durability and high concealment thanks to its density and denseness; This makes it a product that combines in any type of garden.
